

Local 4U

The Covid 19 pandemic provided an insight into our communities. It showed a critical need for communities to be better connected and supported.

Local communities

Localised knowledge is the key to the provision of timely services and supports.

The app

Local 4U is a power packed app that is intuitive. It understands that not everybody loves technology but everyone needs technology

No button pressing

Q.1 How old are you?
A.1 Over 60.
No more button pressing

Please provide verbal responses to each question

Focus on seniors

Initially the app will support seniors in the community. The individual will have full control of the app, including who they wish to share information with.

Features for seniors

The app is about to become a person's best friend

Simply by answering a few questions about the persons mental and physical health, any challenges they face, their shopping needs, likes and dislikes, who supports them. The app will connect the person with supports and services locally.

The app will check in on the person as often request and will provide information on the persons wellbeing to an approved family member

Personal emergency

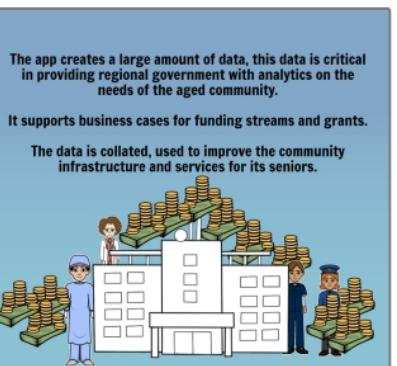

In the event of a personal emergency the app will advise family immediately. It will also provide the hospital with details of medication and general health

Emergency

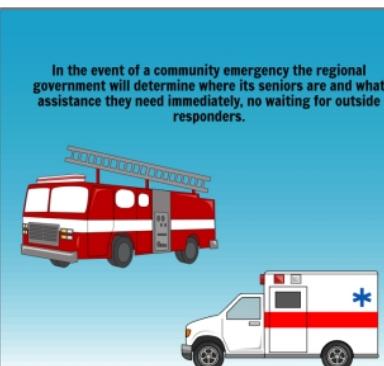

In the event of a emergency the app will advice and guide the person on what they need to do and it will advise the family of the situation.

Regional government use

The app creates a large amount of data, this data is critical in providing regional government with analytics on the needs of the aged community.
It supports business cases for funding streams and grants.
The data is collated, used to improve the community infrastructure and services for its seniors.

State of emergency

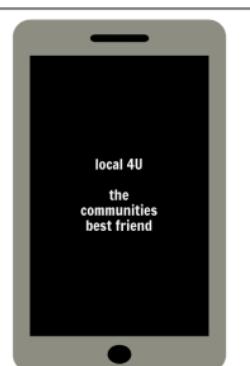

In the event of a community emergency the regional government will determine where its seniors are and what assistance they need immediately, no waiting for outside responders.

The Broader community

Local 4U app has a broader use within the whole community, supporting all community and providing regional government with the information and tools to be the community in every way.
